

CROTHERS' NEWS

PRAY | GIVE | GO

It Takes a Whole Team

Thank You, Thank You, Thank You!

We could not be where we are today without our whole team. Thank you for partnering with us in our journey to reach the last of the lost. We appreciate all of your prayers and support, and are working to get to the field as quick as we can. During our time here as an Okies, we are staying busy with the children's ministry and with our Spanish church.

School

I've finished up the first portion of the Mechanic program at Tulsa Tech, and am a little more than half way through the second. I've also earned my Flight Instructor Instrument Certificate, and Certified Flight Instructor Ratings, so hopefully I can build some flight hours instructing soon.

Prayer Points

- ✦ Continued growth in Spanish church
- ✦ Decision in choosing an agency
- ✦ Another family vehicle
- ✦ Continued growth in our support team
- ✦ Quick and painless delivery for Candace and a healthy baby

Looking Ahead

We recently had a chance to sit down and meet with a representative from a Mission Aviation Organization. We got a clearer picture of some of the things that we need to accomplish in order to transition the field. Building hours, getting a few more Bible credits, and building up our monthly and initial cash budget are a few that we will be working towards in the months to come. Please be in prayer with us in choosing an organization to be with and the region to serve. As we are getting closer to the field we are praying for more to join our team. If you would like to be a part of missionary aviation you can join our team by sending support to Christian Living Fellowship (address below) or online at christianlivingfellowship.org with Crothers Support in the memo.

Mission Aviation News

With the tool of aviation, we can reach people that have been forgotten; the isolated, those that might not ever have a chance to hear about the love of their Creator. Here is one organization and how they are using aviation to further the kingdom.

Mission Aviation Fellowship - <https://maf.org>

MAF has 60 aircraft that fly almost 3 million miles per year. Their operations assist in evangelism, church plants, community development, disaster response, indigenous training, and medical assistance including countries with restricted access to western missionaries.

Mission Mobilization - #GOALS

Goals are a part of life. Whether we are trying to become the next great world leader or trying to go from buggy boy to cashier; we all have goals. Proverbs 29:18 says without vision, the people perish. I believe this whole-heartedly... But I have a question for you. How do your goals line up with God's heart? Is that next big goal you're chasing a part of God's plan for your life? Is it a God idea, or is it just a good idea? Now the big question. What if the goal your Creator has for your life is the journey? What if the the "goal" is not "the goal?" What if you never reach the thing you are striving for? What if your life is cut short just shy of your next big contract, or weeks before retirement? What if the sole purpose of your life was so that someone could see your faithfulness through every season of your life? What if it was so that others could be in awe of what a great legacy you left? What if today is the culmination of your life? Are you ready to be the answer to someone's prayer? Jesus is ready!
